

Cargo and Stock Through Put

Creating Tailored Risk Solutions

Overview

We have a large Cargo and Stock throughput market in London. Our Underwriters have plenty of experience insuring some of the largest retailers in the world, along with commodities and raw materials.

How can we help

Our broking team can design tailored policies to satisfy your Insured's requirements and/or budget. The more you direct us regarding the structure the better, as every account is individually negotiated on its own requirements.

Limits

Up to USD200,000,000+

Target Industries

All considered

TIV

USD30M+

Minimum Premium

USD50,000

More challenging interests considered

Mobile phones, electric cars

Markets

Lloyd's – we have access to the entire Cargo market plus 4 market facilities which each have a limit of USD 50m any one conveyance / loss.

Submissions

Please send us a completed application, including throughput values past 5 years, average values any one conveyance, average values stored, 5-year loss record.

Please request our application document.
