

Builders Risk and Master Builders Risk

Creating Tailored Risk Solutions

Overview

London has a healthy appetite for construction projects over USD100m especially if they are unique or more challenging, where they need to be syndicated,

We can also consider providing a Master Builder risk facility if the developer has a healthy pipeline of projects.

How can we help

Our broking team can design tailored policies to satisfy your Insured's requirements and/or budget. The more you direct us regarding the structure the better, as every account is individually negotiated on its own requirements.

Limits

Up to USD100,000,000

Target Industries

All industries

TIV

USD250M+ Master Builder Risks
USD100M+ Single projects

Minimum Premium

USD250,000

Interesting factors

Renovations, unique projects with challenging features, infrastructure, historical buildings.

Markets

Lloyds and London Company markets, Europe and Bermuda.

Submissions

Please send, project details, Gantt chart, Geo tech report, plans of the project, contractors details/experience and 5 / 10 year loss record
