

Overview

We have experience of designing policies to the demands of our clients where they recognise particular and individual risks at board room level and their current policies wouldn't respond to the individual situation identified.

Examples

Regal Movie Theatre - revenue protection

- Sought coverage for loss of revenue due to an active shooter event at any US theatre.
- Trigger based on number of people involved and audience boycott duration.
- Custom policy provided immediate access to funds upon trigger and D&O risk mitigation.

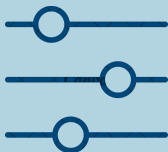

US Distributor - Contingent Business Interruption

- Based in Orlando; shipped to the Caribbean via the Port of Fort Lauderdale.
- Concerned about part closure from major windstorm.
- Solution: Parametric windstorm cover on the Port, protecting against contingent business interruption.

How can we help

Our broking team can design tailored policies to satisfy your Insured's requirements and/or budget. The more you can direct us regarding the structure the better, as every account is individually negotiated on its own requirements.

Limits

Up to USD100,000,000+

Target Industries

All

TIV

USD100M+

Minimum Premium

USD150,000

Challenges

Unable to offer financial guarantees, so currency hedges and other financial exposures a decline.

Require a trigger or an event in order to negotiate with insurers.

Markets

Lloyd's and London companies, Bermuda.

Submissions

Please send us outline of the risk identified, the trigger, values at risk and 5 year loss record.
